Cut out and put in order.

I'm sorry. Those green shoes are for volleyball.

I want to go home and watch sports on TV! Goodbye!

What for? This T-shirt is for basketball. That T-shirt over there is for volleyball. And that yellow T-shirt is for running. What do you want?

Yes, please. I'd like some running shoes. How much are these shoes here?

Can I help you?

Oh! I see. And those blue shoes in the box over there. Are they running shoes?

Well, these shoes here are for running in the country. And those shoes over there are for running ...

OK! Stop it, please! Can I have a T-shirt?

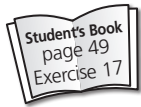

Those shoes aren't for running, they're for basketball.

Right. Then where are the shoes for running?

No, they're not. They're for cycling.

Oh! OK. Then can I try on those green shoes over there?

1 Hi there! My name's Ben. I'm from Halifax in Canada. Find out more about me here.

2 This chessboard is from Spain. My aunt travels a lot and she brings me presents. At home I play chess with my dad. He's good! I go to the school chess club too. It's fun.

I collect stones. These are some of the stones from my collection. When I go to a new place, I look for a new stone. **3** Every summer we go camping in the Rocky Mountains and I find a lot of cool stones there. My favourite is black and it's from a volcano.

4 This is Spark. She's four years old and she's my best friend. I take her for walks and she sleeps on the floor in my room. She's sitting under my desk now. I play with her a lot too.

You can see two of my cool things in this photo.

5 I'm sitting on my bike. It's quite new and I love it. I ride it to school every day. I'm wearing a new jacket too. In the photo I'm in the yard in front of my house, but you can't see it very well. It's my favourite place in the world!
